## Cheat Engine Script Not Activating

means that the script relies on something that no longer works. knows that it is not necessary to perform further, which is why the cheat is not activated. The cheat content no longer works. Now you can only start over. If you cannot run scripts, then you are probably using the wrong file path. If so, then you will have to find the right path. If you are using Windows, you can do this using the command: %APPDATA%\BioWars\BioWars\_Data\scripts\[your name].sav If you are using Linux, you have different ways to do this. Specifically, the command is: sudo nano /path/to/script.sav
