how to download: ===== Hi guys, Can someone please help me out, I am having issues with my keyboard. When I press the right side of the keyboard, and type it then go left I end up typing a different letter and not the right one? Sorry if this is a newbie question but could you help me out please? Im new to MS Office as well as the software world and im having issues understanding the navigation side of things. 1. Where do i find all the projects and file locations, so i can get to my own project files? 2. How do i transfer a project back and forth between my laptop and my desktop? (Mediafire) hey everyone i have created a tutorial on the keyboard shortcuts of MS PowerPoint 2013! This is a step by step tutorial on how to use the keyboard shortcuts of Microsoft PowerPoint 2013. When i first started creating the tutorial, i had no idea what was going on and i thought i would probably forget a few shortcuts. What i discovered in the making of this tutorial, was that after doing the research, it was very hard to find an application with any shortcuts. If you have any questions, comments or suggestions regarding the content of the tutorial, feel free to comment below, and i will be more than happy to help you. Thanks! -Chris (Mediafire) Hi, im not new to powerpoint but im new to using the wireless keyboard, im having problems with the 'advance' option. i cant figure out how to go to the next slide without the keyboard (or click 'next' on the mouse). can someone help me out please? 77a5ca646c
