Shots fired at home of Columbia County School Board members | News Title (Max 100 Characters) COLUMBIA, SC (WIS) -- Columbia County School Board members are getting home-security at night after two were shot at their homes. WIS reported the board members were shot at two nights in a row by a person with a handgun. On Friday night, School Board members Jason Sharpe and Trevor Thompson were shot at in separate incidents, near their homes in the Longstreet Road area of East Columbia. They said shots were fired into their home, but no one was injured. Both saw the bullets hit the side of their homes. School Board Chairman Spencer Spires explained that the member's homes are on a rural road and are not on a school bus route, which have previously been targeted. After being shot at Monday night, board members reported similar circumstances of shots going into their homes. They said they have hired a security firm to put someone in their homes. Both board members said they are not going home any time soon, but they need help. "We have a lot of work to do as a board," Spires said. "We will continue to work hard on the district." The school system said they are working to provide security in schools for the remainder of the year. Last week, WIS reported that a board member in the neighboring county reported a threat that forced schools to go on a lockdown for hours. The report said the threat was made in reference to the "Columbia Tree Trimming Project," which was mentioned in a post to the private Facebook group "Cape Fear Water Issues" on Jan. 23. Q: Keep getting default path error with Erlang/Java integration I've started developing with Erlang, but I'm running into some difficulties. Using the Erlang command `erl -gui`, I'm able to make a GUI with several components. If I make a `single.erl` file with 6 or more modules, I 3e33713323
