This script saves all data from your Divx or any other format movie into the database. It is the best way to get movies from Divx online. After you install it you can find data on your DVDs/Divx movies online without waiting for the DVDs to be loaded. When you insert a movie in your media player you have the possibility to copy the data from the DVD to your hard drive and to save it in the database. You can save as many movies from Divx as you like. After the movies are saved, you can view them from the media player or from the database. Filename:
