## What's New in the PandaIDE For PHP?

PandaIDE for PHP is an easy to use application that was designed to provide developers with a handy means of debugging PHP apps. The program also supports editing the projects and the browser support includes the most well-known names: Firefox, Chrome and Internet Explorer. If you have already installed this program in your computer, you should be able to open it by double clicking on its icon. If not, simply extract the archive and follow the installation instructions included in the Help section. Changes, fixes and improvements from the previous version: The update will be also available for the programs available on the Panda Software website. Requirements: This program requires a working installation of the WAMP or XAMPP server as well as the MySQL and PHP versions 5.0.0 or later. Opinions and User reviews: Amanda Chazotte I also recommend this to anyone who has trouble debugging their PHP scripts. This is a very easy to use application. Richard Abraham The interface is very clear and intuitive. It is fast and very easy to use. You will never miss a new syntax error. There is even an index of all functions that you can access. It is definitely worth downloading. Adrian Straka The program is fast and reliable, and it helps to detect and resolve problems before publishing your scripts. In short, it makes your life easier. James Greenwell I tested it and I liked it. After you set up the MySQL database, it's very quick to use. You can even run in the background, and it will just keep on working while you work on your scripts. It's easy to use, and it's fast. Barry Rasmussen This program is a great way of testing your code and correcting errors before releasing. I have been using it for many years now, and I'm very happy with it. Opinions and User reviews: Kurt Sorenson I tested it and I liked it. After you set up the MySQL database, it's very quick to use. You can even run in the background, and it will just keep on working while you work on your scripts. It's easy to use, and it's fast. Adrian Straka The interface is very clear and intuitive.
