What's New In SpyDefy?

SpyDefy is an application which can help you scan, identify and clean the malware from your computer in just a few minutes. And to prevent future infections, SpyDefy's real time guards protect against new malware around the clock, protecting you silently and automatically. SpyDefy uses proprietary techniques to achieve rapid spyware scans and utilizes low memory consumption. This means that SpyDefy will not hog your system resources, freeing you to enjoy computer games, watch videos and browse the internet without any interruptions or slowdowns. ByteCrusher SpyDefy has a dedicated team of anti spyware experts working around the clock to ensure that your computer is protected against any new threats before they can cause damage to your system. SpyDefy Features: Note: Each feature has 5 different comparisons to see how it scores. The higher the number, the better the feature is at protecting you from spyware. A feature can score a maximum of 5 on each comparison. Optimised for speed: SpyDefy's technology is able to detect and remove spyware in a fraction of the time of traditional spyware scanning software. Because of this, SpyDefy is able to protect you from spyware better than traditional software can. Unique cloud-based technology: SpyDefy's technology is able to detect and remove spyware in a fraction of the time of traditional spyware scanning software. Because of this, SpyDefy is able to protect you from spyware better than traditional software can. Speeds up scans: The cloud based technology of SpyDefy can scan thousands of files in seconds. This is a big plus because SpyDefy can scan 100% of your computer in seconds, regardless of how much data you have on your computer. This means that you will never miss spyware on your computer, because SpyDefy will scan 100% of the files. Scans and removes multiple threats: SpyDefy's cloud based technology scans 100% of your computer for spyware and key loggers. This is an important feature because SpyDefy is able to prevent spyware from being installed on your computer in the first place, which is a great advantage. Scans and removes multiple threats: SpyDefy's cloud based technology scans 100% of your computer for spyware and key loggers. This is an important feature because SpyDefy is able to prevent spyware from being installed on your computer in the first place, which is a great
